EDUCATION

University of Michigan

B.S. Computer Science (College of Engineering), Minor in Music

SAT: 1570 Languages: Python, Java, C++, HTML/CSS, JavaScript, Swift, Flutter

Relevant Coursework: Data Structures [EECS 280/281], Machine Learning [EECS 245], Cybersecurity [EECS 388]

Ann Arbor, MI

Expected Graduation May 2028

EXPERIENCE

Smith+Nephew

Pittsburgh, PA

Intern, Voice Control & Computer Vision for Surgical Robotics

Summer 2026

May 2026 – August 2026

- Built CNN/VLM classification system for image-based Pressure Ulcer staging, diagnosis, and product recommendation
- Consulted clinicians and trained models using official NPIAP (National Pressure Injury Advisory Panel) guidelines as well as Smith+Nephew product usage documents
- Engineered a proximity-based adaptive noise gating pipeline for [CORI](#) Voice-Controlled Surgical System for speaker isolation in noisy OR environments

Summer 2025

June 2025 – August 2025

- Did comprehensive data analysis for the Clinical Team to gauge performance of [CORI](#) Total-Knee Surgical robot
- Built, trained, and tuned a ML Model to predict the Total-Knee surgery time based on patient characteristics
- Utilized an ensemble of Gradient Boosted Trees and Probabilistic models to provide accurate, specific time ranges

Emanate, Music Technology Startup (<https://www.emanate.studio/>)

Ann Arbor, MI

Founder, using DSP, Python to produce interactive visuals for concerts

August 2025 – Ongoing

- Developed software that allows DJs to control their mix in real-time using hand gestures— expansion into lighting in progress
- Produced a seamless setup that connects to an audio interface at concerts to produce audio-reactive visuals
- Used [projection mapping](#) to create musical installations on campus, including a [projected piano](#) people could play by walking

Art of Culture

Chicago, IL

Inaugural Intern to Grammy-winning rapper Rhymefest

June 2022 – August 2024

- Assisted in the studio in various tasks— from songwriting to beatmaking and mixing
- Led multiple AoC Events dedicated to helping the youth through music on the South Side of Chicago
- Collaborated with Rhymefest on song [Reflections](#) that was used in Chicago Public Schools School Board Campaign

OxideMEMS / Published Research

West Lafayette, IN

Purdue University Research Intern

June 2021 – August 2021

- Performance testing of MEMS switches using specialized lab equipment (probe station, resonant frequency tester, etc.)
- Developed a project for Enhanced 911 protocol using MEMS altimeter to locate a person in distress in a highrise
- Had my paper peer-reviewed and published in the [Journal of Emerging Investigators](#)

PROJECTS

synqd, iOS App (<https://mysynqd.com/>) [Swift]

Remote

Founder, notification-based long-distance couples app

May 2026 – Present

- Built an iOS app for long-distance couples to stay connected in a passive, intuitive fashion
- Uses a widget on your home/lock screen to show the current timezone/location of your partner, days until you two meet, and send customized push notifications
- Released on iOS TestFlight for Public Beta, building dedicated user base that has been involved in features/improvements

Crispy, Audio Plugin ([GitHub](#)) [C++]

Remote

Developer, VST/AU-compatible audio plugin for vocal processing

December 2025 – Present

- Developed in C++ using the JUCE framework. Combines an equalizer with multiband compression, sibilance reduction, and saturation in a very beginner-friendly UI for amateur musicians to mix their own vocals with professional quality
- Code is packaged and easily installable on all major DAWs (Logic, FL Studio, etc)

Independent Musician, Spotify/Apple

Chicago, IL + Ann Arbor, MI

Music all written, produced, recorded, and mixed myself

August 2025 – Present

- Accumulated over **100k+ streams** and **3k+ monthly listeners** across multiple accounts ([Ayan](#), [Air Conditioner](#))
- Hosted several performances, including in 400 person venues such as the iconic Blind Pig
- Managed a team to handle budgeting, sponsorships, and on-site operations

ACTIVITIES & LEADERSHIP

Y Combinator Startup School

San Francisco, CA

Accepted from 30,000+ applicants

August 2026

Michigan Music Business Club

Ann Arbor, MI

Director of Creative Technology

January 2025 – Present

Google Student Developers @ Michigan

Ann Arbor, MI

Member

October 2025 – Present
